

Listening Practice using www.notesinspanish.com -

Listen to three different selections of Notes in Spanish at the intermediate and advanced level. For each one, write a brief summary in Spanish about what you heard. You may listen to the selections as many times as you need to in order to understand them. In each summary, tell me the name of the selection, if it is intermediate or advanced, new vocabulary words that you learned from the selection, and at least one new fact that you learned as result of listening to your chosen selection. Keep a log of your listening selections to be collected the first day of school.
