

**Do you rent a home that was built
before the 1970s?**

**Do you live with a child under the
age of 6 or a pregnant woman?**

YOU COULD QUALIFY FOR THE ERA LEAD HAZARD CONTROL PROGRAM.

Houses built before 1978 may contain lead-based paint. Lead can harm young children and babies. If you meet the income guidelines listed on the back of this flyer, the Erie Redevelopment Authority will pay to temporarily relocate you and remove the lead in your apartment. Ask your landlord about the ERA Lead Hazard Control Program. If you need more information, ask your Community School Director for a landlord flyer.

NOT A RENTER?

Homeowners can qualify for the Lead Hazard Control Program too. If you meet the income guidelines listed on the back of this flyer, reach out to the Erie Redevelopment Authority. They can explain what this program will cover for you.
